

Hatch End planning application

We would like to clarify a number of issues that have been raised about this planning application.

If you wrote to Cherwell District Council and objected to the previous application, your objection will **not** be taken into consideration when the CDC planning committee look at this new application.

If you still have objections, you should therefore write again to CDC, stating your concerns about the new application. There are significant differences between the previous application and the new one. Any objections you raise should address the new application, not just be a reiteration of what you previously wrote.

The consultation notice from CDC states: *"If you wish to comment on the application please do so ... no later than **30 April 2020**. Any comments received after this date will only be considered if a decision has not yet been made."*

Steeple Aston Parish Council has been granted an extension to this time limit until Friday 21st May in order that we can consult the village as fully as possible. The officer's report to the Planning Committee will refer to comments submitted up to 21st May, but the earlier you submit them the more effective they will be because the officers will have more time to study them, and to see them as independent of the Parish Council's views; this is important.

There will be a Zoom meeting to discuss the application at 7.30 p.m. on Monday 10th May. Please email the Parish Clerk for a link if you would like to attend the meeting.
