

# Steeple Aston Community Orchard

## NATURE TRAIL

Look for the logs around the orchard.  
Use the words and pictures to answer the questions.

1. Which tree grows triangular nuts?

.....

2. What kind of owl needs a home?

.....

3. What do you call a person who looks after honeybees?

.....

4. Where could you find millipedes, ladybirds and mason bees?

.....

5. Which tree is colourful in autumn?

.....

6. What animal can breathe in the air and underwater?

.....

7. Which fruit can have stripy skin?

.....

8. What other animals can you find?

.....

### BORING MESSAGE FOR GROWN-UPS

Please take care around our beautiful orchard and ask children with you to do the same. Watch out for **bumpy ground**, the **pond** in the bottom corner, **nettles**, **brambles** and **thorny roses**. Take extra care around the **beehive**: we suggest staying well over a metre away. The nature trail logs are designed for looking at not sitting or leaning on. Srewna: 8 tab, gohegdeh, nibor; 7 elppa; 6 gorf; 5 nawor; 4 letoh gub; 3 repeekieb; 2 lwo nrab; 1 hceeb

Boring message over - have fun!
